Alexa Ferr Biography:

Toronto, ON/Los Angeles, CA

R&B/Pop artist Alexa Ferr is the true definition of a bonafide triple threat with an extraordinary talent in singing, dancing, and acting. At just 22-years-old, Alexa has already made a name for herself with her own take on popular music, resulting in media outlets globally coining her as the “Rugged Popstar!” 2017 is slated to

continue Alexa's monumental climb as she releases her electrifying single "Room For 2" and her brand new EP.

Born and raised in Toronto, Canada, Alexa always loved to perform. Her first performance was at a local singing contest that she remembers as "terrifying" but something that she immediately took great pride in. Growing up and continuing to perform, Alexa gained 8 years of experience in jazz, tap, ballet, hip-hop and contemporary dance. In 2009, Alexa flew to LA for a talent convention and was scouted by many producers, which led her to travel back-and-forth to LA often to record her demo album. She proceeded to record her first single, "Fell," which she released under Universal Music Group/Dauman Music. The single featured Disney star Matthew "Mdot" Finley, who was also featured in Disney Channel's Camp Rock 2.

After success with her first single, Alexa began working closely with production duo The Invaders and later released an EP entitled "Lipstick on the Glass." The EP caught the attention of renowned celebrity photographer and director, Walid Azami, who went on to create Alexa's video for the title EP track. Since then, Alexa has performed in various famous venues in LA such as The Viper Room, Whisky A Go Go, The Tiki Bar in Newport Beach and the famed House of Blues in Hollywood. Now 22-years-old, Alexa has been invited to attend many red carpet events and network with some of the industries' biggest acts.

Alexa cites artists such as Rihanna, Aaliyah, Brandy, Britney Spears, Madonna, Michael and Janet Jackson as some of her biggest musical influences. She describes her music as "rugged R&B/Pop" due to the fact that it's her own unique take on those genres. All of her music is drawn from her personal experiences, including recent single "Room For 2" alongside production duo, The Penhouse

Outside of music, Alexa loves to read, work out, cook and travel. She aspires to one day have her own clothing and cosmetics lines, as well as her own studio and talent agency. Dedicated to giving back, Alexa supports charities that deal with topics such as Children, Cancer and Domestic Violence. She hopes to use her voice to raise awareness on these issues, all which are personal to her.

Gearing up for an exciting year, Alexa is currently working with a variety of producers to finalize her EP due out in February. Ultimately, Alexa has dreams of touring around the world and inspiring as many people as possible with songs that have real stories and real emotion. She hopes to encourage others to never give up on their dreams and to always pursue what they love.
